Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed Applicant's Representative's assertion that the Kammerer reference did not include a circular spring fixedly secured to the front structure that biases the seat assembly towards the tumbled position. It was agreed that Kammerer did not teach such a structure and it was suggested that Independent claims 1 and 8 would be amended to include the limitations of claims 2 and 14, respectively, and that the dependency of claim 3 be changed from claim 2 to claim 1. The proposed Examiner's Amendment was agreed upon and entered as such.
